ABOUT ME

A twenty one year old, highly motivated software engineer fluent in programming as well as designing, adept to quick learning and sharp reconnaissance. I'm eager to explore new fields and always dependable when it comes to getting quality work done on time.

SKILLS

NextJS	NodeJS	Flutter	React Native
Laravel	NestJS	Svelte	VueJS
Angular	Firebase	MongoDB	MySQL
Gitlab	Azure	Docker	Kubernetes

EDUCATION

2021 - 2024
Sri Lanka Institute of Information Technology
BSc (Hons) in Information Technology Specializing in Software Engineering

HONORS & AWARDS

Winner
Haxmas 2021, SLASSCOM Ingenuity Awards 2021 - Best Innovative Product - LetMeKnow

Winner
Algothon 2021

WORK EXPERIENCE

2022 - Present
Software Engineer - Spades App FZ-LLZ

Engage as a full-stack developer on multiple frontends and backends running as independant microservices

Development and maintainence of a full package ecosystem for Node.js microservices

Integrate with PSPs, cloud based POS systems and build a sustainable mechanism to gather data from closed systems through plug and play agents and browser plugins

Deploy and integrate with Apache Kafka on Kubernetes through helm and use it in combination with Azure Service Bus to maintain a steady communication flow between components

Write and deploy highly maintainable Azure functions

2021 - 2022
Software Engineer - Parallax Technologies

Active collaboration as a full-stack developer on multiple tech-stacks including Flutter, VueJS and Laravel

Design and develop a realtime notification system using NestJS, Socket.io and FCM

PROJECTS

Spades - Web based solution to revolutionize the dine in payment industry - **https://www.spadesapp.io**

Curfox DMS - Software for courier companies to build manage and grow their network - **https://curfox.com**

QickTeam - Mobile Application for individuals of similar interests to attend the same activity/event **https://play.google.com/store/apps/details?id=com.teams_up**

Bashaway - Fully fledged system for competitor registration, question/answer submission, progress analysis and marking. Made for Bashaway 2022 in collaboration with the SLIIT FOSS Community - **https://bashaway.sliitfoss.org**

Timekeeper - Plugin ecosystem for automated tracing/logging in NodeJS based applications. Developed in collaboration with the SLIIT FOSS Community - **https://timekeeper.sliitfoss.org**

NPM Catalogue - NodeJS library ecosystem targetted mainly at microservices. Developed in collaboration with the SLIIT FOSS Community - **https://github.com/sliit-foss/npm-catalogue**

Automatic Versioning - A library for automatically versioning an app in accordance with conventional commits. Designed to work with monorepos to version just the updated workspaces **https://www.npmjs.com/package/automatic-versioning**

Mongoose Filter Query - A NPM package which standardizes a format for mapping an incoming http request's query params to a format which is supported by mongoose **https://www.npmjs.com/package/mongoose-filter-query**
